Thursday, October 24	Morning	Technical Sessions

Call for Abstracts

The review team for Technical Programs invites papers on the following:

- *Landslides*
- *Retaining structures*
- *Soil & rock slope design*
- *Geological and geotechnical innovations*
- *Karst terrain*
- *Geotech instrumentation*
- *Rockfall*
- *Geotechnical asset management*
- *Foundations*
- *Risk and management*
- *Geophysical testing methods*
- *Risk and Risk Management*

Papers on subjects concerning highway related geological and geotechnical problems and the solutions developed to address them are also of interest. Those papers that focus on practical solutions will be given first consideration and will be considered on a first come basis. The deadline for submission of the 200 - 250 word abstract is March 29, 2019, and can be uploaded [here](#). Please check the Highway Geology Symposium website for updates at:
